CSC 3380: Object-Oriented Design

Bayou Ridge University · Division of Computer Science · Fall 2026 · Section 2 · MWF 10:30-11:20 AM, Patrick Hall 117

Course Information

Instructor	Dr. Elena Marsh (emarsh@bayouridge.example)
Office hours	Mon and Wed 1:00-2:30 PM, Patrick Hall 302, or by appointment
Teaching assistant	Sam Okafor (sokafor@bayouridge.example)
Course site	All handouts and submissions are on the course page in the learning portal.

Description

An introduction to designing medium-sized software systems with objects. Topics include classes and interfaces, inheritance versus composition, UML modeling, design patterns, unit testing, refactoring, and working on a team codebase with version control. Students complete weekly lab exercises and a semester-long team project.

Grading

Component	Weight
Homework (5 assignments)	25%
Quizzes (4, lowest dropped)	10%
Labs	10%
Midterm Exam	20%
Final Project	15%
Final Exam	20%

Letter grades: A 90-100, B 80-89, C 70-79, D 60-69, F below 60. Homework submitted late loses 10% per day and is not accepted more than three days late. The final exam is cumulative. Quizzes are given at the start of class and should take about 15 minutes.

Course Schedule

Dates are subject to change; any change will be announced in class at least one week ahead. Unless a time is listed, work is due at 11:59 PM on the date shown.

Wk	Date	Topic	Due
1	Aug 24	Course overview; Java refresher	
2	Aug 31	Classes, objects, encapsulation	Lab 1 due 9/4
3	Sep 7	Labor Day: no class Mon 9/7	
3	Sep 9	Interfaces and polymorphism	Homework 1 due 9/11
4	Sep 14	Inheritance vs. composition	Quiz 1 on 9/16
5	Sep 21	UML class and sequence diagrams	Lab 2 due 9/25
6	Sep 28	Unit testing with JUnit	Homework 2 due 10/2 (5%)
7	Oct 5	Exceptions and defensive design	Quiz 2 on 10/7

Wk	Date	Topic	Due
8	Oct 12	Review and practice problems	Midterm Exam on Oct 14, 10:30 AM
8	Oct 16	Fall break: no class	
9	Oct 19	Design patterns I: Strategy, Observer	Project proposal due 10/23
10	Oct 26	Design patterns II: Factory, Adapter	Homework 3 due 10/30 (5%)
11	Nov 2	Refactoring and code smells	Lab 3 due 11/6
12	Nov 9	Git workflows and code review	Quiz 3 on 11/11; Homework 4 due 11/13 (5%)
13	Nov 16	Concurrency basics	Project milestone due 11/20 by 5 PM
14	Nov 23	Thanksgiving holiday Nov 25-27: no class	
15	Nov 30	Team demos	Quiz 4 on 12/2; Homework 5 due 12/4 (5%)
16	Dec 7	Final Project presentation Dec 7 in class	Final Project report due 12/9

Final Exam

Final Exam: Friday, December 11, 2026, 10:00 AM - 12:00 PM in Patrick Hall 117 (20%). Bring a photo ID. No make-up exams without documented emergencies.

Policies

Academic integrity. You may discuss ideas with classmates, but every line of code and every written answer you submit must be your own. Using generated code without citing it is treated as plagiarism. Violations are reported to the Dean of Students.

Attendance. Attendance is expected. Students who miss a quiz with a documented excuse may have that quiz dropped instead of the lowest score.

Accommodations. Students who need accommodations should contact Disability Services and the instructor during the first two weeks of the semester.

Last day to drop with a W is Friday, October 30.
